Client's Docket No. MDI891~~

## **ABSTRACT OF THE DISCLOSURE**

- 5 A pager belt buckle device for conveniently combining a belt buckle with a pager unit. The pager belt buckle device includes a belt buckle member having an upper elongate support portion and a lower elongate support portion being spaced apart and further having a housing portion integrally attached to the upper and lower  
10 elongate support portions and being disposed therebetween and being recessed along a longitudinal back side of the elongate support portions thus forming a belt receiving slot between the upper and lower elongate support portions; and also includes pin-like support members being removably connected to the upper and  
15 lower support portions and extending therebetween; and further includes a catch member hingedly mounted about a first of the pin-like support members; and further includes a pager assembly for receiving radio signals.
